

SMALL GROUP

Discussion on Genesis, chapters 10-11

1. What do the detailed genealogies in Genesis, chapters 4, 5, 10, 11 teach us about the book of Genesis. Discuss why this is important.
2. Read Genesis 11:4. Discuss several sinful motivations for building the tower of Babel, and how these are contrary to man's created purpose.
3. Genesis 11:5 is called an anthropomorphism; that is, it describes God's action using human attributes that the readers themselves possess and can relate to. Read the following verses and discuss what the following anthropomorphisms communicate: 1 Peter 3:12, Isaiah 41:10, John 10:28-29
